PROFILE SUMMARY

Newly graduated computer engineering student with a passion for frontend development. Seeking opportunities to improve skills in HTML-CSS-JS, Typescript, React and frameworks such as Next.js, Tailwind. Possessing problem-solving abilities, adept at creating and designing software in a test-driven environment. Capable of self-management and working effectively as part of a productive team. Interested in an entry-level role as a frontend developer to continue learning and growth.

SKILLS & TOOLS

HTML5	React	MongoDB	Websocket
CSS3	Sass	Node.js	SQL
Tailwind	Next.js	Express.js	

EDUCATION

Marmara University │ Computer Science & Engineering   2019 - 2024
GPA: 3.03/4

For my graduation thesis project, I completed a project titled 'Forecasting Workforce Capacity for Supermarket Delivery System' using machine learning, utilizing data obtained from Turkey's one of the most famous supermarket chain.

WORK EXPERIENCE

OBSS   07/2023 - 08/2023

Frontend Developer Intern

- Successfully completed an intensive course focused on advanced web development technologies such as TypeScript, Next.js, React, Websocket.
- Created and presented 3 different projects named "Contact Management System","Fighter aircraft Status System" and "Space Invaders Game".
- After the course, I proactively took the initiative to advance the Contact Management System's development by engaging in a dedicated independent study period under guidance of a mentor.

Ketencek I.T.   08/2022 - 09/2022

Frontend Developer Intern

- Developed a pre-design for an upcoming business website independently, successfully completing the project while also gaining valuable experience.
- Developed knowledge and experience in HTML, CSS, JavaScript, and Frameworks such as Bootstrap and Tailwind.
- Gained experience in project management by monitoring the project request process and in the execution phase of business projects.
